# BASIC *line*

A group of door panels stamped in PVC (white) or in ABS (veneers). ABS is a very resistant material to impacts and highly reflecting UV rays. It has very good thermal insulation properties, and at the same time does not deform when temperatures are changing. Both materials are of high quality and have a long aging period. Suitable for modern and classical constructions. What makes this product the most popular in its series are: competitive price, short realization.

## PARAMETERS

- > standard dimensions: 850 x 2000 x 24/28/36/44 mm;
- > there is the possibility of using waterproof plywood reinforcement (a solution recommended especially for dark colors);
- > all models are available as standard in 18 different veneers, white color and the white creme 9001, dyed in the mass;
- > 13 different glasses: Thermofloat, VSG 3.3.1, Satinato, Chinchila clear, Chinchila bronze, Mastercarre, Masterpoint, Reflex bronze, Delta clear, Delta bronze, Delta Mat, Crepi and Flutes.

## VEYNA DOORS QUALITY

The company VEYNA, in collaboration with his partners, have succeeded all the test for security doors RC2 with security glass of class P4. All our panels are given gratis to pass the tests in the research entities or other control bodies. Security doors RC2 or RC3 enrich our offer and give possibility to buy more solid doors in the producers. They still gard their news and interesting designs. **The tests were done for doors in alu.**

**We offer 5 years warranty. The panels are produced with components from renowned european companies.**
